# ABOUT US

A Kitten Place was formed as a completely volunteer based animal rescue organization, for the purpose of rescuing orphaned kittens and homeless cats in our nearby communities. We take the kittens into our homes, provide veterinary care and oftentimes critical care, food, shelter and socialization until the kittens reach an adoptable age. Once the kittens are vetted and sterilized, we find suitable homes for them either through social media postings or through in person adoption events.

A Kitten Place focuses our efforts on rescuing the most vulnerable group in county shelters, the neonatal kittens. These kittens are euthanized on a DAILY basis at local shelters, even if they are completely healthy and viable, simply due to the lack of resources the shelters have to care for these special needs kittens. The kittens at this age often need to be bottle fed and stimulated around the clock. Although neonates are a population that we feel compelled to save, we also rescue cats that are pregnant or have recently given birth as well as older kittens that may have critical medical needs.

The volunteers at A Kitten Place have a unique desire and dedication to help the helpless, the most critically in need cats and kittens, no matter the time it requires to bring them to good health and find them loving homes, and no matter the cost.

We also make every effort to participate in TNVR (Trap, Neuter, Vet and Return) opportunities in our communities, as we understand that sterilizing the stray and homeless cats is the true answer to making an impact on the cat overpopulation crisis. We rely solely on the general public for donations of supplies and monetary donations to care for the cats/kittens in our foster program and we operate out of our own homes to care for them.

# MEET PEACH

Peach was surrendered as a stray to our local veterinarians office in active labor, but struggling. It turns out that she had a previous injury to her pelvis and the birth canal was too narrow for her kittens to pass through. Sadly, all four of her kittens ended up passing.

That next day we received a frantic message about a resident who found 4 abandoned newborns in her garage. We gave her some tips on how to lure mom to them and waited for almost 24 hours but she never returned.

We knew Peach had breast milk so we decided to see if she would accept these 4 abandoned neonates...she did, happily. It was one of the most heartwarming sights to witness!!

The story got even better when an amazing family adopted Peach and TWO of her kittens. They have been living happily ever after and we couldn't be happier for Peach and the kittens she rescued.

# FOSTER A CAT

Do you have room in your home to take care of a kitten in need? Our foster families are who enable us to rehab, raise, and care for our cats and we are always looking for new families to join!

# ***EMERGENCY CARE***

ADOPT ***RAVEN SHELL***

We are committed to helping as many cats as we can at A Kitten Place by rescuing from our local kill shelters to providing emergency veterinary care for wounded animals.

We do everything we can for our kittens to get the best care, so we do not cut corners and our funds get depleted fast.

Jimi (L) and Olive (R) both received emergency care thanks to AKP.
